Queens Health Coalition (QHC), created in 1994, provides essential links between the underserved communities of Queens and quality health care. The goal of establishing these links is to improve and enhance the overall health and well being of Queens residents who may not know what health care services exist or can be created, and how to access or gain support for them. Through education, communication, and case management, QHC's multi-lingual staff of professionals identifies, develops, implements, oversees, and advocates for programs, personnel and other valuable resources that match health care needs with health care solutions. We serve all segments of our population providing programs, activities and referrals for youngster and oldster alike.
