2010 CMS Guidelines for Evidence-Based Practice

Friday, October 8, 2010 • 7:30 am-4:45 pm

Location

NYHQ Theresa and Eugene M. Lang Center for Research and Education 56-45 Main Street, Flushing, NY

Statement of Need

21st Century healthcare faces continually mounting challenges. CMS, (The Centers for Medicare & Medicaid Services), has recently focused a great deal of attention on wound and skin care to improve the quality and efficiency of the care our patients receive. As healthcare professionals, we are in a unique position to address these challenges head-on. As Alexander Graham Bell stated, "Great discoveries and improvements invariably involve the cooperation of many minds." With this in mind, the Surgical and Wound/Ostomy teams at NYHQ have joined forces to host our 1st Annual NYHQ Wound Care Symposium to unite and educate professionals on the most up-to-date evidenced-based research, diagnosis, and treatments aimed at advancing our practice. This symposium will provide attendees with skills and information necessary to understand evidence-based practice to the level that will drive our efforts to excel professionally and more importantly achieve the best patient outcomes.

Target Audience

Physicians, Physician Assistants, RN's, RNP's, Physical Therapists and Registered Dieticians.

Educational Objectives

The purpose of this program is to improve patient care. At the conclusion of this program, participants will be able to improve patient outcomes through:

- Discussing standard wound assessment and documentation.
- ▶ Reviewing CMS 2010 updates and revisions.
- ▶ Specifying wound pathology/etiology and advanced treatments of various complex wound types.
- Describing examples of evidence-based practice and multidisciplinary approaches to enhance outcomes in an acute care setting.
- Recognizing socioeconomic and cultural challenges in caring for the patient with wound, ostomy and continent needs.
- Discussing the unique wound care issues and treatment concerns of the geriatric population.
- Identifying results of evidence-based wound care program.
- Discussing best practices to prevent and address possible liability associated with patient wounds.

To Register/Information

Ms. Pamela Williams, Director, Continuing Medical Education tel: 718-670-1419 • fax: 718-661-7925 email: pgw9001@nyp.org • website: www.nyhgcme.org

Program

7:30-8:00 am Registration and Breakfast

8:00-8:15 am Welcome and Opening Statement

Directions

New York Hospital Queens is located on the corner of Booth Memorial Avenue and Main Street in Flushing. From the Long Island Expressway: take the Main Street Exit (#23), travel north on Main Street to Booth Memorial Avenue. From the Whitestone Bridge: take the Van Wyck Expressway to the College Point Blvd Exit; turn left on College Point Blvd and right on Booth Memorial Avenue. Follow Booth Memorial Avenue to Main Street. IRT Flushing Line #7: train to Main Street (last stop), then Q44 bus southbound on Main Street; stops opposite the hospital. New York Queens is located in a residential area with metered parking. Free lock-and-park spaces are available under the Van Wyck Expressway at College Point Blvd and 58th Street. This area is patrolled by NYHQ security. Shuttle buses to the Hospital run approximately every 10-15 minutes. Limited paid parking is available in our Visitor Parking Lot located on Booth Memorial Avenue opposite the Emergency Room.
