New York Hospital Queens Expands Pediatric Surgery Program Led by Charles Coren, M.D. – Emergency Surgical Services 24 hours a Day – 7 Days A Week

Charles Coren, M.D. Director, Pediatric Surgery

NYHQ expands pediatric surgery program to cover children 24/7/365 – right here in Queens

Whether a necessary procedure is planned or due to an emergency – physicians, parents and young patients now have increased access to a higher level of expertise and compassionate service – right here in Queens. Today, NYHQ doesn't just offer elective pediatric surgical services, but provides pediatric emergency surgical services 24 hours a day, 7 days a week in a state-of-the-art facility.

NYHQ's continuum of pediatric services includes a 20-bed pediatric inpatient and pediatric intensive care unit, a dedicated pediatric emergency room, a Level III neonatal intensive care unit, the longest running, free-standing pediatric asthma program in Queens, The Theresa Lang Children's Ambulatory Care Center for primary and specialty outpatient services, and a broad spectrum of pediatric subspecialties from gastro-enterology to cardiology.

For more information, to discuss a patient case, or to schedule a surgical consultation with Dr. Coren, or one of his associates, call **718-670-1238**.
