Fresh Meadows Diabetes & Endocrinology Care ***Fact Sheet for Physicians and Patients***

In Queens, diabetes and metabolic health issues are a growing concern. New York Hospital Queens and endocrinologists from Fresh Meadows Diabetes & Endocrinology Care have long worked together to care for patients. Now, this practice is now a member of the New York Hospital Queens physician group, New York Queens Medicine & Surgery, P.C.

These physicians at Fresh Meadows Diabetes & Endocrinology Care are a resource for primary care physicians to refer patients with endocrine disorders. The practice has a multi-disciplinary diabetes treatment team (including physicians, nurse educators and dietitians) for patients who need help managing diabetes through treatment options as well as self-management education. The physicians at Fresh Meadows Diabetes & Endocrinology Care also have extensive experience in diabetes-related clinical research studies.

New York Hospital Queens is proud to be associated with these expert physicians. We support their commitment to protect and promote the health of our community.

DIABETES RESEARCH

Daniel Lorber, M.D., the founder of the practice, has long served as the associate director of the Theresa and Eugene M. Lang Center for Research and Education and the director of Endocrinology at New York Hospital Queens. Dr. Lorber and his colleagues at Fresh Meadows Diabetes & Endocrinology Care have been the principal and co-investigator of numerous clinical trials that investigate treatment options and standards of care for individuals with diabetes. In 2009, Dr. Lorber was named the American Diabetes Association Outstanding Physician Clinician in Diabetes.
